

Business Leader, - Treasury Operations-101877

Job Description

Visa Inc. is a global payments technology company that connects consumers, businesses, financial institutions and governments in more than 200 countries and territories, enabling them to use digital currency instead of cash and checks.

Visa does not issue cards, extend credit or set rates and fees for consumers. Visa's innovations enable its bank customers to offer consumers choices: Pay now with debit, ahead of time with prepaid or later with credit products. From the world's major cities to remote areas without banks, people are increasingly relying on digital currency along with mobile technology to use their money anytime, make purchases online, transfer funds and access basic financial services. All of which makes their lives easier and helps grow economies.

Behind the Visa brand are more than 6,500 talented employees who continuously raise the bar with innovative solutions and products that deliver the convenience and security of digital currency to more people all over the world.

Position Summary

Visa is currently seeking a Business Leader to play a critical role in supporting the Treasury, Tax, and reporting activities of the Finance Systems Strategy group. In this dynamic and challenging position, the Business Leader will be a key liaison between the Treasury, Tax and Corporate Information Technology teams for defining the Treasury and Tax systems roadmap and implementing key systems. Excellent leadership, communication and project management skills are critical for this role. This position will manage one staff member.

Key Responsibilities

- Translate broad Treasury and Tax systems strategies into specific project objectives and action plans, aligning efforts through a team of finance system resources, IT team and other key stakeholders.
- Collaborate with Treasury and Tax business partners and IT team to develop comprehensive and concise business requirements to help drive system solutions and implementation.
- Responsible for the coordination, sequencing and overall management of various projects running simultaneously to evaluate interdependencies between multiple initiatives, budget control and ensure on-time delivery of projects.
- Drive efficiency and effectiveness by streamlining, standardizing and automating processes and reporting requirements.
- Ensure compliance with Financial Internal Controls, SOX, Anti-Fraud and Anti-Bribery policies as deemed appropriate.
- Provide recommendation to management based on best practices and experience working in a global and diverse environment.
- Work with limited direction, usually within a complex and changing environment, to drive delivery of solutions and meet service levels.
- Communicate effectively and proactively with all levels of management and articulate ideas and recommendations clearly.

Qualifications

- 7 or more years of experience in large global organizations with a proven track record of success and advancement in systems analysis experience.
- Bachelor's degree required.
- Excellent communication skills (written and verbal) and ability to translate complex information into a comprehensive and concise business requirement document with minimal revisions.

- Extensive project management skills and ability to effectively juggle multiple projects at one time and meet project deadlines.
- Ability to think strategically and analyze trends, situations, and industry specific data in order to turn them into business opportunities.
- Flexibility and open mind to sort out business constraints from different sources.
- Working knowledge of Treasury and Tax business processes.
- Background in Treasury systems, including implementation of Treasury Workstation software.
- Ability to lead through organizational change and ambiguity, including experience in a global matrix management environment.
- Reputation for being a collaborative thought partner and business leader, skilled at leveraging formal and informal networks with the company.
- Strong people management skills.
